market was governed principally by

market was governed principally by wheat and corn.

The visible supply showed a decrease in cats of 401,000 bushels, but had little if any effect on the market.

The provision market was weak and heavy for the most part, although very little change in value resulted in the end. Fork recovered a 10-cent decline, to within 2½ of its closing value on Saturday, and lard and ribs are actually without change. Hog receipts were 25,000 head and 18,900 head are expected tomorrow.

The leading futures ranged as follows.

AS SEEN BY DICKSON.

What One of the Foreign Insurance Managers Says.

RATES TO BE READJUSTED.

INCREASE IN LOSS RATIO AND GEN-ERAL LIABILITY WILL DO IT.

General Manager Stillman, of the Cattle-Utah Stock Going to Mon-

adjust itself in time," said Robert Dickson, western agent of the Royal Exchange Assurance company of London, and Pacific coast manager for the Queen and Connectiout, yesterday afternoon to a Herald reporter. The gentleman was on his way east to New York where he will spend several days and then sail for England and the continent on a four months' leave of absence. He was accompanied by his wife and daughter. They arrived from the west on the early morning adjust liself in time," said Robert cents. from the west on the early morning

list was affected by the weakness of coziers, and fell off a fraction, but the Ceclining fendency was quickly checked, and in the last half hour the losses were to a large extent recovered and the market closed strong and in a great majority of cases at an advance on the final rales Saturday.

Foreign ho less were moderate buyles of the alphirage specialities, and helped materially to strengthen the trading. An other important factor was the favore ble character of the reports of rain oad earnings for the months of April and May. There was a considerable buying of the short account and taking it all in all the special ation today was decidedly healthy in tone Sugar led in the transactions and advanced I's per cent to 1.15, which is the top price of the day. The low point is 8615, touched on January 3. Canada Pacific my years of least property and the large property of the flow point is 8615, touched on January 3. Canada Pacific my year and the great and daughter. They arrived from the west on the early morning from the west on the from the west on the early morning from the property.

I LARD-PET 109 pounds 6.150.

SHOUT RIPS-Sides (loose), 6.550 (S.75).

SHO insurance standpoint, and there is no prospect of an immmediate improvement, unless some catastrophe should bring the managers to their senses," continued the gentleman. "The entire trouble is the direct result of personal feeling and jealousies among the Pacific coast managers and until there is a change in sentiment or some starts a change in sentiment or some starts. cific coast managers and until there is a change in sontiment of some start-ling orders are received from the home offices the same condition of affairs is likely to continue. Up to the time I left the coast nothing of a definite nature had been received by the general managers, but it is anticipated that within a short time the meetings which are now being held across the water will result in some sort of a concerted action on the part of the managements that will bring the coast managers up standing. Stockholders of an insurance company are not likely to long Chicago. May 5.—Cattle receipts today were estimated at only 3.59 head, against 15.57 hist Monday. There was a much better demand than usual and dressed beet firms and shippers took hold freely at an average advance of 19 cents per 100 pents better demand than usual and dressed beet firms and shippers took hold freely at an average advance of 19 cents per 100 pents of the sort of business that is now being carried on throughout the jurisdaction of the Board of Fire Understeer's found purchasers at 3.995.45. Exposters were scale light buyers. Cows are selling at 1.754.58, with sales largely to local slaughterers.

With 1.566 hogs left over from last week, the pens contained nearly 33.00 head, and pricas were were and sell-actively to local slaughterers.

With 1.566 hogs left over from last week, the pens contained nearly 33.00 head, and pricas were were decline, however, and the principal change was in choice mixed and choice assorted light, which were 5 cents lower. Heavy houses and the principal change was in choice with a week and the principal change was in choice with a series and the principal change was in choice with a tast starting at a decline, however, and the principal change was in choice with a week and the principal change was in choice with a series of the particle was formation to extra station on the part of the home offices to the pens contained nearly 33.00 head, and pricas were weak, some dealers calling the market a mickel lower. Heavy houses and the principal change was in choice with a week and the principal change was in choice with a very good demand for good offerings, imparted at 1.5094.80, and the principal change was in choice with a very good demand for good offerings, imparted and choice assorted light, which are also should be a supply in connection with a very good demand for good offerings, imparted the principal change of the principal

Stillman Has an Opinion.

General Masager Stillman, of the Board of Fire Underwriters of the Pacific, came in from the north yesterday morning and will probably be here for several days. He met with the local Board of Underwriters persent. He is of the opinion that the home offices will soon make some move to check the indiscriminate cutting of rates which is now being carried on in California and right here in Utah. There are several reasons for this, one being the great increase in liability, While it is true that for the present the premium receipts of most of the companies are heavier than would have been the case in the olden times, due to relssue of policles and increase in liability is also being piled up. A cut of 50 per cent, that now most in vogue on the coast, means the quadrupling of the loss ratio. Such a condition of affairs cannot continue for much longer, in the opinion of Mr. Stillman.

Mr. Stillman has been in the northwest for the past several weeks organizing local Boards of Underwriters and states that in but one city in the district is there any cutting being carried on. That is in Missoula, where the Home and Phoenix is making some trouble. He is of the opinion that the local boards will be able to hold things down in good shape throughout the entire jurisdiction of the companic, although it is questionable whether or the present year. All of the restimony the feet own lands, are likely to find their taxes increased somewhat during the promition of the companic, although it is questionable whether or the present year. All of the testimony the feet of the value of lands in Davis long the local boards will be able to hold things down in good shape throughout the entire jurisdiction of the companic, although it is questionable whether or the present year. All of the testimony the course of the trial of the several continuous down in good shape throughout the entire jurisdiction of the companic, although it is questionable whether or the present year. All of the testimony the control of the c

local boards will be able to hold things down in good shape throughout the entire jurisdiction of the compact, although it is questionable whether or not their effectiveness will continue for long without a strong central organization. The gentleman is not sure whether he will proceed direct home or return to the northwest, his advices not having been received as yet. Commenced the Adjustment.

Commenced the Adjustment.

The adjustment of the loss sustained by the stocks contained in the store of the store of the store of the American Clothing company on Second South, will be in the hands of Special Adjuster Outcault, and work has already commenced. On the tailoring and clothing stocks and the fixtures there was a total of \$8,200, divided among the companies as follows: Atlas, \$3,000; Deleware, \$1,000; Connecticut, \$2,200; Royal Exchange, \$1,000; Home Mutual, \$1,000. In addition the building carries \$10,000, but the loss on that will be hardly anything.

London at this particular time. It is the usual cry, however.

The Provo Woolen Mills company is still not satisfied and continues in the markets for Utah wools. It has to date purchased in the neighborhood of 300,000 pounds of wools, paying therefor the highest market prices, and has on hand a quarter of a million pounds. In order to keep the Provo plant in operation throughout the year something over 400,000 pounds of wool are required, and the Deseret mills consume about one-half Deseret mills consume about one-half of that amount when they are operated, so that the Provo company cuts considerable of a figure in the territorial market.

Two shearing outfits are engaged in removing fleeces near Milford, and to date about 140,000 sheep have been shorn there. It is estimated that the Compact, Also Has Something to Say Regarding the Situation-Recent Rain Storms Interfered With Sheep Shearing-Some Movements of Wool-Utah & Colorado Land and Cattle Co. Purchased Range (Cattle-Light Stock ficing to Monthe case the clips must have been ex-

PURCHASED MORE CATTLE.

quarters during their stay here.

"On the coast things are in a very much disorganized condition, from an insurance standpoint, and there is no purchase gives the Utah & Colorado people sole possession of their ranges and also makes them owners of the cattle which range there. A. Hanauer and M. K. Parsons are the chief own-

ers in the company.

Montana buyers seem to have selected Utah as their favorite stamplected Utah as their favorite stamping ground this spring and as a result there will be some heavy shipments of territorial cattle to the north within the next six weeks. A. D. Young last week purchased 1,000 head of young cattle in the northern part of the territory for Davis & Bigham, of Red Rock, Mont. and yesterday a local dealer sold 500 head more for delivery at Cascade, Mont. These latter cattle were purchased in Oregon some time ago, however, and cannot therefore be classed as strictly a Utah shipment.

From all parts of the territory come reports that the ranges never were in

The people who testified during the course of the trial of the several condemnation cases instituted by the Great Salt Lake & Hot Springs Railroad company in its endeavor to secure right of way through to Farmington, as to the value of lands in Davis county, and who fixed values upon their own lands, are likely to find their taxes increased somewhat during the present year. All of the testimony touching upon the value of lands, taken during the hearings, is being transcribed and it is the intention of the company to lay the matter before taken during the hearings, is being transcribed and it is the intention of the company to lay the matter before the territorial board of equalization and also the assessor of Davis county in order that the owners of this very valuable land may be assessed at something like its real value according to the sworn statements of the owners. This course of action probably did not enter into the minds of the land owners who went upon the stand and testified to the true value of the lands as they saw them, and the filing of the information will be the cause of considerable consternation.

As is always the case, there were a few obstructionists in the line of the little road's extension to Farmington, and these people refused all advances made by the company, their refusal resulting in cases at law. The greater majority of the people along the extension had patriotism enough to appreciate the good work the company was going and accepted any reasonable valuation for their lands.

The railroad has also advanced the price of freight on milk sent in over its line in the mornings and evenings, there being quite a traffic in that commodity.

nison island for the purpose of bring-ing over another load of the fertilizer. The twenty tons delivered the other day have already been sold to Ogden people. From the people who worked the boat over to the island and back it was learned that the gulls are nest-ing on the island as usual by the ing on the island as usual by the hundreds of thousands but the pelicans and cranes have refused to

Passed the Dividend. The quarterly dividend period of the Cunnington company came round yesterday and the board of directors was in session for the transaction of the regular monthly business of the company, but the usual dividend was not declared. It is understood that there will be no distribution of earn-ings during the present year, the business of the company having been ma-terially reduced on account of the de-crease in mining operations and the in-ability of those companies operating to make purchases of heavy stocks of sup-

Vacancies Were Not Filled. There are two vacancies in the board of directors of the Utah Commercial and Savings bank, caused by the death of T. W. Ellerbeck and Dr. Groves, yet the board did not yesterday select new directors, contrary to the general ex-pectations. Instead, it decided to de-

Asked For an Extension. Having failed to come to time with the necessary cash to bind the purchase of some 300,000 shares of the capital stock of the Great Salt Lake Natural Gas and Fuel company for outside parties, Joe Walden has made application to the stockholders who intended disposing of their holding of stock, or part of it at least, for an extension. No official action has been taken but the gentleman was given to understand that in the event of his presenting the cash the original proposition would be considered open for a limited time. It is understood that the price to be paid for the stock is 3 cents. The company holds some valuable gas lands under lease but as yet has not secured any gas. One well is going down and it is said that the prospects of the company are good. Natural Gas and Fuel company for pects of the company are good.

"Atlas, miss." "And who supported Atlas?" "Please, miss, my book don't say, but I 'spec' it was his wife."

Struck by His Own Beauty.

Is Cycling

Many persons apparently healthy find great difficulty in getting a good night's sleep. If they are able to go to sleep, they often wake up during the night and He awake for hours. Consequently when morning comes, instead of feeling refreshed they feel as tired as when they went to bed. They are unable to account for this and seek the costly advice of a physician. The doctor recommends cycling and off they go to buy a hicycle, never supposing for a moment that there is as much difference in cycles as there is in doctors, and after the exercise is taken, the same old tired feeling still remains, when, if they had bought the renowned light running Rambler bicycle from Browning Bros., the difficulties would have vanished like the dew before the morning sun. There is really more harm done in pushing a light, heavy-running wheel than there is in taking no exercise at all. Many persons become discouraged and conclude that the remedy is worse than the disease, when had they purchased the proper thing the result would have been quite different.

DULL TIMES ADVERTISING.

The best business lever is advertising, newspaper advertising is the longest lever and the quickest to move trade. Duil Times

Are the times to put forth the greatest effort and the most money. People don't usually ask For What they have already.

Advertising Is merely ASKING FOR TRADES When the store is full every day, cut down your space. Don't expect that you will get a big trade in dull times, but keep count and you'll find that the other trising was profitable.

Proftable

Right at the time and enormously profits ble after a while. The very fact that only a few merchants are wine enough to advertise in dull seasons, makes it all the more profitable for those who do. You are there when others are not. It gives you greater prominence. It will make your advertising in busy times much more

Common sense has a great deal to de with advertising. Think about it from a Common-sense

Standpoint. It may take som, merve to pay out money for newspaper space when the business isn't paying expenses

It Will Pay.

More than half the business houses the country would be ahead if they could shut up for three months in the summer. But they don't do it.

Simply because they can't afford to. Post ple would forget them. Some way with advertising. Think of its
